Hotkeys: Quick Navigation and Efficiency

WP Accessibility Toolkit · https://handyplugins.co/docs/accessibility-toolkit-hotkeys/

Hotkeys, or keyboard shortcuts, play a crucial role in enhancing the accessibility and usability of the Accessibility Toolkit.

By enabling users to navigate and interact with the toolkit using simple key combinations, hotkeys reduce the reliance on mouse actions, making the toolkit more accessible to individuals with motor disabilities or those who prefer keyboard navigation for efficiency.

Accessibility Toolkit that can be operated through keyboard mappings, ensuring you can leverage the full potential of hotkeys to enhance your experience:

Feature	Hotkey
Toggle Widget	CTRL + ALT + A
Gray Hues	CTRL + ALT + G
