Content Templates

Handywriter · https://handyplugins.co/docs/handywriter-content-templates/

Content templates will create the content you need the most, right away! In order to access supported content templates, you need to navigate Handywriter > Templates.

Choose the appropriate template and complete the necessary fields.

Then you can copy the generated content and use it anywhere you want to use.

Supported Templates

Handywriter currently supports these templates:

- Blog Ideas

- Ecommerce Product Descriptions
- Google Ad Copy
- Tweet Ideas
- Youtube Video Description
- Personal Bio
- Call to Action Ideas
- Case Study
- Bullet Points

Feel free to reach us if you want to suggest we to add new templates. Oh, yes, we have a plan to add more content soon.
