How to create a Meta Description?

Handywriter · https://handyplugins.co/docs/how-to-create-a-meta-description-with-handywriter/

Handywriter can suggest you a meta description based on the content. Click on the "Create a Meta Description" button and choose one of the suggested results.

When you click on the description, it will be automatically copied to the clipboard. After then, you can use description anywhere you want. (eg: entering custom description in Yoast SEO, Rank Math or any favorite SEO tool that you use)
